

— VOICE-AI SCHEDULING

The calendar that makes the calls for you.

AuraCal confirms appointments, chases follow-ups, and gathers booking details with AI voice agents that hold real, two-way conversations — so the busywork around your schedule just handles itself, day and night.

The screenshot shows a calendar interface with a 'CALENDAR' button and navigation options for 'Today', 'Month', 'Week', 'Day', and 'List'. The calendar grid displays dates from Sunday 26 to Saturday 30. Appointment icons are visible on the 20th, 21st, 22nd, and 30th. The 20th has a red dot for '9a Appointment 2', the 21st has a blue dot for '9a Appointment 1', the 22nd has a green triangle for '9a ts1', and the 30th has a blue dot for '9a apt 2'.
